

Welcome to the 3rd and last Scandinavian TCM Congress 1st - 4th September 2011

For the third - and also last - time we once again look forward to gathering practitioners of Chinese Medicine from all around the world to the Scandinavian TCM Congress. However, the third congress is the last one in this series of congresses held in beautiful and homely Slettestrand.

It is with great pride that we have organized congresses and made them a wonderful success, but it is time now for a break. We have new plans for the future, and therefore this Scandinavian congress is the last one to be organized in this particular way.

However, you may rest assured that we will come back with new ways of gathering TCM practitioners from all over the world in Scandinavia.

So do take time to join this last congress - this is your last chance to become part of a dream that started in 2007 - and learn from personal experience that you have something to look forward to when we come back with new ideas and fresh starts. The fountain of ideas has not run dry. We sparkle as much as ever with new dreams and visions like water from a spring. A tradition has been born, and that cannot be denied - considering also the fact that the congress was honoured with a golden needle last time. This shows us and everybody else, that the Scandinavian TCM Congress is important - and that the north is the place where practitioners of Chinese Medicine from all over the world meet to nourish relationships and already established partnerships - and make new ones.

Scandinavian Congress Theme and Title 2011

The congress theme this year is: "Chinese Medicine and the Fertile Spirit: Childhood, Nourishment and Long Life". Everything begins with a fertile spirit, wanting to grow into a human being, and the first step is the childhood. How can we use our Chinese medicine, from the very start, to support this fertile spirit into coming alive and realising its full potential with as much yin yang balance as possible?

Nourishment takes place on many levels. Nourishment is not just food, but also love, acceptance and support. And there must be room for failure as well, because we can learn and grow stronger through failure. In which way will the fertile spirit choose to gain long life? In Yang Sheng, Nourishing Life, there are many mountains to climb and deep seas to swim, but in the end everyone is a unique and powerful soul that will rise to the sun.

Once again Chinese Medicine will broaden our horizon during four inspiring congress days and show us the depth of our ancient classic medicine, whether the approach is practical, theoretical or philosophical. To enhance our knowledge of Chinese Medicine and to seek answers, we will have 20 international and national Chinese Medicine experts ready to teach their favourite topic within the framework of the congress theme.

We are proud to present our own congress film, which will give you an impression of the previous Scandinavian congresses or maybe revive good memories. The film was made during the last congress in 2009 by Eitan Dotan from Israel. You may remember him from the congress, running around with his camera over his shoulder! The film will be made available on DVD, and we plan to send it to all the associations of Chinese Medicine, which we cooperate with, as well as all the schools of Chinese Medicine in Scandinavia. If you wish to receive the DVD, please feel free to contact us, and we will have it sent to you.

Tradition is set for a beautiful music evening and further to that also a poetry reading straight from the heart. And obviously a supreme congress party will be the icing on the congress cake. A new event at the congress will be book signing by the well-known Chinese Medicine authors. This takes place in the exhibition hall where you may enjoy you coffee/tea breaks this year, and of course the exhibition itself is a must at any congress.
